

# Salt Separation Services

## MISSION STATEMENT

### **Our Vision**

Salt Separation Services aim is to be the UK's leading supplier of engineered water treatment plant and associated spares and service into the marine, offshore and process industries.

### **Our Mission**

We endeavour to understand the needs of our customers and respond accordingly, providing high quality, conscientiously engineered products.

Salt Separation Services are committed to building mutually beneficial and lasting relationships with customers and suppliers alike.

Our principle business is the design, manufacture, refurbishment, installation commissioning, spare provision and servicing of Reverse Osmosis plants for the desalination and purification of water. Other business areas in which we are active include filtration, chemical dosing, ultrafiltration and nanofiltration.

We have a highly skilled and highly motivated workforce able to meet the needs of our customers in a highly responsive manner, with the ability to offer support across the whole project lifecycle from conceptual design through to post commissioning services (such as plant optimisation, obsolescence management, etc).

To achieve our objectives we aim to:

- communicate openly and honestly in all dealings in order to develop an atmosphere of trust,
- undertake joint problem solving with a no blame culture,
- listen to and respect everyone's point of view,
- pro-actively develop people and the team,
- identify problem areas and concerns early, in order to agree a common way forward,
- celebrate success.
